

# Could **AUTISM** Be Part of **YOUR CHILD'S** Story?

- Heightened sensory sensitivity?
- Deep focus on preferred topics?
- Strong preference for routines?
- Unique and expressive movements?
- Different social style or play style?
- Strong honesty without filters?
- Unconventional problem-solving?

**Take this **supportive** first step.**

We provide neurodivergent-affirming autism pre-screening assessments **for children of all ages and all communication levels.**

- **Get meaningful insights from experienced assessors.**
- **Get guidance on next steps that match family priorities.**
- **Lay a strong foundation for understanding and supporting your child as they grow.**

*Partners in*  
**AUTISM**  
FAMILY OWNED • FAMILY FOCUSED

Every child grows in their own way, but the earlier we support their needs, the better they can thrive. **Early identification of autism gives families the best chance to connect and succeed.**

We use research-based assessments that provide dependable, meaningful insights at a fraction of the cost of a formal diagnosis.

## **A foundation for understanding. With no waitlist. At less expense.**

What to expect:

- Screening tools selected for age and communication ability
- A clear summary you can choose to share with your pediatrician, school team, care providers, or just keep for your family\*

These assessments are paired with a one-hour consultation from an empathetic and affirming perspective so your family will:

- Feel heard and understood.
- See how traits connect.
- Gain tools to learn more about how your child experiences the world.
- Receive supportive, affirming guidance for your journey.

### **Begin your family's journey to informed discovery.**
