

TEENAGE Assessments for AUTISM

Wondering if autism is part of your teen's story?

Do they ...

- Find social cues challenging?
- Struggle to make or keep friendships?
- Display deep honesty, creativity, or unique problem-solving skills that stand out from peers?
- Sometimes seem overwhelmed or exhausted by busy or unfamiliar environments?

They deserve to understand what makes them unique ... and to know they're not alone.

We provide neurodivergent-affirming autism pre-screening assessments **designed for teens.**

- **Get meaningful insights from experienced assessors.**
- **Get guidance on next steps that match family priorities.**
- **Let your teen know that they make sense.**

Many autistic traits pass as "quirks" in childhood but have a social impact as kids grow. **Empower your teen to navigate life with greater confidence and success through understanding themselves better.**

We use research-based assessments that provide dependable, meaningful insights at a fraction of the cost of a formal diagnosis.

**Affirm what they've been feeling.
With no waitlist. At less expense.**

What to expect:

- 1-on-1 session
- Screening tools selected for teens
- A clear summary you can choose to share with teachers, doctors, or just keep for your family*

These assessments are paired with consultation from an empathetic and affirming perspective so your teen will:

- Feel heard and understood.
- See how traits make sense together.
- Gain tools for learning more about themselves.
- Build their esteem for what makes them unique.

**Help them navigate
this part of their identity.**
