

CLIENT-DIRECTED SERVICE

- **Not all ABA is the same. Ours is centered on dignity.** •

We use ethically vetted, research-based strategies to help children positively self-advocate, successfully navigate social interactions, and master daily living skills.

The goals we pursue are shaped in direct collaboration with the family to ensure they match each family's unique priorities.

KELLY PHILLIPS

Director of
Behavior
Analysis

Kelly...

- Sees ABA as an incredible tool to help an individual grow, learn, and succeed.
- Seeks out best practices to build client agency.
- Advocates for access to resources within the community.
- Is energized by seeing the personal growth of her clients. Began as a social worker for a client with Autism and quickly steered her career to the field of ABA. She became a behavior technician, then a trainer, and now a Behavior Analyst. Her Master of Arts in Applied Analysis comes from Ball State, and she is Pyramid PECS Level 1 certified.

Olivia...

- Strives to be a role model for her clients and staff.
- Constantly explores new ways to support clients, their families, and their staff while making ABA a fun and enriching experience.
- Began as a behavior technician knowing that she wanted to make a difference. Now as Director of ABA Services, she is able to connect with both clients and families to provide each with the resources they need.

OLIVIA DUNTUN

Director of
ABA Services

DELANEY OETTING

ABA Clinical
Director

Delaney...

- Creates natural opportunities for meaningful growth, building lasting change towards independence.
- Crafts care to fit the unique needs of each client and family.
- Nurtures staff's skills and passions.
- Entered the ABA field because of a personal connection to a family member - she wanted to find the best ways to help him grow and meet his needs.

Kaydn...

- Draws passion from her experience as a mom, holding every aspect of care to the same standard she would expect for her own children.
- Emphasizes a positive, affirming environment.
- Prioritizes families, clients, and staff well-being by ensuring they feel supported and valued.
- Seeks to maximize treatment fidelity through the training and feedback she provides to staff.

KAYDN ULLOM

Assistant
ABA Clinical
Director

LINZIE TUCK

Director of
Behavior
Quality
Assurance

Linzie...

- Advocates for protecting client dignity and agency across all services and environments.
- Values working directly with clients' families to pursue meaningful goals.
- Provides training and consultation to each of our services to ensure all of our staff have a deep understanding of autism.
- Has a Bachelor's in Psychology and a Master's in Applied Behavior Analysis. She is certified in administering the ADOS-2, CARS2, and RAADS-R assessments.

Rachael...

- Leads by example with a client-centered approach.
- Is propelled by every "aha" moment when kids acquire a new skill.
- Draws from experience in clinical and hospital settings at multiple levels.
- Has a Bachelor's in Psychology and a Master's in Applied Behavior Analysis.

BECCA BARNEY

Behavior
Analyst

Becca...

- Loves providing truly individualized care, teaching others, and working with passionate technicians to facilitate growth in the lives of the kids and their families.
- Brings experience from positions as a Behavior Technician, ABA Trainer, Clinical Director, and Behavior Analyst. She is one of our certified physical management trainers.
- Has a Bachelor's in Child and Family Development and a Master's in Applied Behavior Analysis.

Bri...

- Equips clients using a communication modality that best supports each client's needs.
- Builds trusting relationships with families.
- Strives to provide hands-on, practical support that empowers caregivers and clients.
- Has a Bachelor's in Exercise Science and a Master's in Applied Behavior Analysis.

BRI SMOTHERS

Behavior
Analyst

AMANDA BUTCHER

Behavior
Analyst

Amanda...

- Believes in increasing clients' quality of life by building communication skills, independent living skills, and more!
- Grew up spending time with a friend with Down Syndrome and volunteering in resource rooms throughout middle and high school.
- Has a Bachelor's in Communication Sciences and Disorders, and a Master's in Applied Behavior Analysis.

Mary...

- Immediately fell in love with serving kids with developmental disabilities and watching them make progress towards their goals.
- Promotes individualized care, autonomy, and making ABA fun for clients and staff (she never misses a dress up day)!
- Has a Bachelors in Exercise Science with minors in Psychology & Spanish and a Master's in Applied Behavior Analysis.
