- **Get guidance on next steps that match your priorities.**
- **Get to know yourself more deeply and fully.**

You've wondered long enough.

Partners in
AUTISM
FAMILY OWNED • FAMILY FOCUSED

Many adults go through life masking, adapting, and questioning without ever receiving definitive answers. **You don't have to keep wondering.**

We use research-based assessments that provide dependable, meaningful insights at a fraction of the cost of a formal diagnosis.

Know yourself more deeply. With no waitlist. At less expense.

Our neurodivergent-affirming assessments are:

- Private & Confidential
- Designed for Adults (you're not a kid - we don't treat you like one)
- Based on Validated Screening Tools and paired with an easy-to-understand Results Summary for you to keep (or share with your therapist, neuropsychologist, or doctor to pursue a formal diagnosis)

These assessments are paired with consultation from an empathetic and affirming perspective.

- Feel heard and understood.
- See how individual traits fit together.
- Gain tools for learning more about yourself and connecting with others.
- Appreciate the different aspects of yourself.
- Validate the pride you already took in what makes you unique.

**You deserve
to understand
yourself fully.**
